

Happy Easter

Andreas Reuter

Here in Germany we have had a very long and cold winter. We continue to experience low temperatures at night and even seeing some snow in the mountains. But at the lower elevations, winter has passed and spring has arrived, giving us something to be smile about. With longer days and the warmth of the sun it has brought new life once again to our gardens as well as to our pigeons. Our lofts are very busy as our birds are mating, sitting on eggs and a few of us are seeing new babies being hatched and rings being placed on their legs at this time. With each new breeding season it brings excitement to each of us, that perhaps we will raise that special bird that might possible offer us high marks in the upcoming show season.

We want to wish all the breeders and friends of our wonderful Saxon pigeons, a "Happy Easter" and a great breeding season that results in many strong and healthy youngster's.. We will be looking forward to seeing each of you during the show season here in Germany. Especially looking forward to seeing you at the German Pigeon Show in December in Leipzig as well as the Special show of our Saxon pigeons in January in Zwönitz.

**The very best of luck
to you in your
breeding season**
